

RITE NOW @ ROP

As many families continue to struggle during the COVID-19 pandemic, California Foster Families continues our mission of improving lives. Every day, our Social Workers are actively involved in our communities, conducting home visits and providing resources and support. Being a caregiver to young children is never an easy task; we know that having an extra hand can make a considerable difference during these trying times. Our Social Workers understand the toll shelter in place and social distancing measures take on the health and wellbeing of our resource families; they remain on call 24/7 to alleviate any fears or concerns our families are experiencing. From washing dishes and assisting with meals to sanitizing children's play areas, helping with school work, and entertaining children with creative projects, our social workers continue to save the day. In addition, ROP-California Foster Families has added a telephone screening process prior to all home visits to ensure the safety and wellbeing of not only our staff, but of our families and children as well. California Foster Families Social Workers are genuine heroes doing their utmost to make homes happy and safe for our youth.
